

# WE ARE EXPERTS ON THE MOST IMPORTANT NUTRIENT FOR YOUR LIVESTOCK... WATER

TREATING WATER. BETTER.™

## SILVER BULLET WATER TREATMENT UNDERSTANDS LIVESTOCK DRINKING WATER

With over a decade of experience treating livestock drinking water, the Silver Bullet Water Treatment team embraces the challenge to develop water management solutions that fit your farm's unique situations and goals.

Working with customers to integrate water management solutions with hydration systems, we ensure that water quality expectations are met to improve operations, animal welfare, and production.

From pH management to mineral filtration to enhancing your microbial control program, our solutions are custom designed to fit your farm size and budget.

## PRODUCTS, SERVICES & EXPERTISE FOR PREMIUM QUALITY WATER

Silver Bullet's patented technologies and custom engineering designs improve water management processes through cost savings, risk management, and enhancing operational efficiencies.

We integrate treatment processes, laboratory data, and customer service programs to ensure facilities have the proper water management plan for their operations. The right process, maintenance program, and data collection benefit livestock farms by allowing growers to focus on production goals while also providing investment confidence in the solutions.

Silver Bullet Water Treatment  
is viewed by clients & industry affiliates.*

TREATING WATER. **BETTER.**

# COMPANY OVERVIEW

## LIVESTOCK DRINKING WATER DIVISION

### FARM SERVICE & SUPPORT: AS IMPORTANT AS THE AGRI-TECH WE DESIGN

Water treatment has often consisted of sales that leave customers with no guidance and maintenance challenges. These challenges divert the customer

from optimizing farm operational efficiencies – we've changed that model by evolving into a comprehensive water management partner.

Since 2010, Silver Bullet has combined two of the most important qualities that help our livestock producers implement optimal water management strategies: technical expertise and genuine customer relationships and support.

From monthly service visits to consultation with our water treatment experts, engineers, and scientists throughout the lifetime of your relationship with Silver Bullet Water Treatment...we put your farm's needs first!

### SUSTAINABLE, AGRITECH WATER MANAGEMENT SOLUTIONS FOR COMMERCIAL POULTRY & HOG OPERATIONS

Our mission is to provide our customers with sustainable, innovative, clean water management solutions to positively impact the environment, improve health, and increase productivity.

With over a decade of experience treating livestock drinking water, Silver Bullet Water Treatment embraces the challenge to custom design your water management solutions.

Providing exceptional quality drinking water contributes to a return on your long-term investment and helps improve operations, animal welfare, and production.
